MEETING HIGHLIGHTS: SUFU 2017

Doreen E. Chung, MD, FRCSC and Jessica DeLong, MD

[The Society of Urodynamics, Female Pelvic Medicine & Urogenital Reconstruction \(SUFU\)](#) 14th Annual Winter Meeting was held in the desert city of Scottsdale Arizona at the Hyatt Regency Scottsdale at Gainey Ranch. Kathleen Kobashi, MD, and Jennifer Anger, MD, the program chairs, put together an outstanding comprehensive dynamic program complemented by a vibrant basic science program chaired by Adam Klausner, MD, and Lori Birder, PhD.

One recurrent theme was the utility of urodynamics (UDS) in guiding treatment decisions and for predicting outcomes of surgery. Other difficult topics tackled included the management of refractory neurogenic detrusor overactivity, female sexual dysfunction, and the pre-operative urologic evaluation of the renal transplant recipient. Another meeting highlight was the unveiling of the SUFU's best practice policy statement on urodynamics antibiotic prophylaxis in the non-index patient.
